PROFESSIONAL SUMMARY

I'm a creative and results-driven web developer with a deep passion for crafting intuitive, high-performance web experiences. Specializing in React, Next.js, and modern web technologies, I build sleek, scalable, and user-focused applications that don't just look great — they solve real-world problems. From concept to deployment, I thrive on turning ideas into interactive, impactful digital solutions. I am a Full-Stack Developer with expertise in the MERN stack, WordPress, and SEO. I build fast, responsive, and user-friendly websites that perform well in search engines—helping businesses grow through powerful, scalable, and optimized web solutions.
